English as an Additional Language Policy

Date:	January 2023
Review:	January 2025

(1) Introduction

Children who are learning English as an additional language have linguistic skills similar to those of monolingual English-speaking children. Their ability to participate in the full curriculum may be well in advance of their current ability to communicate in English. Being a speaker of more than one language is no disadvantage to educational achievement; indeed, multilingualism is often associated with academic success. This school recognises the importance of community languages in their own right, and the ability of their speakers to acquire other languages.

(2) Aims of this policy

The aims of this policy are to indicate how we will cater for the needs of our EAL pupils

(3) Key points

i. Admission and Induction of EAL children

The school will ensure that all new pupils are welcomed equally and without discrimination.

The following procedures are followed:

- Parents are given written information detailing school procedures and requirements. Where possible this information is given in the home language.
- The class teacher and EAL leader are informed of the new arrival prior to arrival wherever possible.
- All relevant information is passed to the class teacher to help the integration process.

ii. Assessment

- After a 'settling in' period, an assessment will be carried out by school staff to establish the stage of language acquisition and needs.
- The pupil will then be supported on a 1-1 basis and follow our programme for children new to English, as provided by the EAL leader.
- Progress is monitored at least every half term in pupil progress meetings by the class teacher and EAL leader; children failing to progress are identified and given additional support within class.
- A further programme to support children who are still at the beginner/ intermediate level of language acquisition has been designed and can be adapted to support specific identified areas of difficulty.

iii. Teaching and Learning Style

Teachers use various methods to support children who are learning English as an additional language.

Spoken and written English is developed by:

- Ensuring that key vocabulary is covered and explained
- Providing children with a range of reading materials, including some dual language books and access to dual language interactive computer packages which exemplify the different ways English is used
- Providing 'talk partners' within class to model how language is used.
- Giving children appropriate opportunities for talking and using talk to support writing.
- Pictorial cues are displayed during lessons and throughout key areas of the school.

Ensuring access to the curriculum is achieved by:

- Using texts and materials that suit their ages and learning stages
- Providing support through video and audio materials and dual language dictionaries
- Using home language where appropriate provided by native speakers

iv. Professional Development

The school recognises the need for the ongoing provision of staff INSET given by the EAL leader and/or in conjunction with a member of the LA Children's Services Team. The dissemination of best practice takes place with the aim of raising achievement across the school.

(v) Resources

The school continues to build a range of materials/resources that are accessible to support the needs of EAL children. The school also has access to the resource bank available through the Local Authority and the Trust.

vi. Role of EAL Leader

The role of the EAL leader is to:-

- Compile and update the EAL register
- Support colleagues in providing for the needs of EAL pupils
- Assist with the assessment of newly arrived children and any other EAL children causing concern
- To monitor progress of children currently being supported using EAL programmes
- Liaise with staff supporting EAL children
- Liaise with Assessment leader to enable effective monitoring of all EAL pupils.
- Co-ordinate and provide INSET on working with and supporting EAL pupils
- Disseminate good practice
- Develop and improve resources

(vii) Role of Governors

Issues regarding EAL are reported to governors during informal and formal visits. The leader for EAL is also invited to Child Development Committee meetings to discuss EAL matters when necessary or appropriate.
